

Controll-A-Door® R

AUTOMATIC ROLLING GARAGE DOOR OPENER

A B&D Controll-A-Door®R automatic garage door opener was once thought of as a luxury item. Today the Controll-A-Door®R is affordable to all home-owners.

Controll-A-Door®R is more than a convenient inclusion for your garage door. It's safer than lifting a heavy garage door and when closed, you know that it is locked.

YOU GET MUCH MORE WITH
A B&D CONTROLL-A-DOOR®R

SUPERIOR DESIGN

1. CONVENIENCE

You will really appreciate an automatic garage door opener on those cold, dark, rainy days. With just the push of a button on your remote control you will be able to drive straight into your garage.

2. COMFORT

You can enter and exit your garage from the comfort of your car without struggling with heavy doors.

3. SAFETY

In and out of the car at night, parking on steep drives and entering dark garages are all things of the past with a B&D automatic garage door opener.

4. SECURITY

B&D Controll-A-Door®R automatically locks every time it closes. With ease of garage entry you also use the garage more.

5. VALUE

B&D Controll-A-Door®R represents excellent value for money and most improvements add value to your home.

6. INTELLIGENT

Your B&D Controll-A-Door®R is technologically advanced allowing you to set and forget. Your B&D Controll-A-Door®R will indicate when your door requires servicing.

At the end of a busy day just press your remote control transmitter button to drive safely and conveniently into your garage.

A powerful 240 volt motor mounted on a solid steel chassis. It comes with a full 5 year warranty* on the opener including labour to repair when installed by an approved B&D dealer. The confidence and reliability you only get from B&D.

Designed to perfectly suit the famous B&D Roll-A-Door® and other manufacturers' rolling doors.

ADVANCED FEATURES

- ◆ The 3 channel remote control transmitter is pre-programmed with your own security code. With over 3 486 000 000 unique codes you get the ultimate in security.
- ◆ Operating on 433MHz radio frequency for improved reception and less interference it automatically resets all settings after a power failure.
- ◆ Smart technology allows you to electronically program up to 12 remote control transmitters plus 1 entry keypad at the touch of a button.
- ◆ Inbuilt automatic safety reverse system, stops then reverses when the door comes in contact with an object.
- ◆ When the garage door is closed, the motor ensures the door is positively locked with no need for you to remember to lock the door.
- ◆ For an easy, quick stop and start operation of the door, there is an operational button located on the body of the main unit.
- ◆ Courtesy light automatically switches on and off as you open or close your door... the light remains on for 4.5 minutes.
- ◆ Easy to engage cord allows you to manually operate the door.
- ◆ Service indicator to advise you when the door needs servicing.
- ◆ Patented door sensing to adjust the force to open and close.
- ◆ Patented door positioning system always knows where the door is positioned for safety and security.
- ◆ Auto close function when fitted with a safety infra-red beam kit.
- ◆ "Vacation Mode" allows you to disconnect the remote control activation whilst away from your home for extended periods.
- ◆ Suits either single or double width rolling garage doors up to 3 metres high and 5.5 metres wide.†

Optional safety reversing!

B&D recommend the use of safety infra-red beams on all installations of automatic garage door openers.

† Or 16.5m² door surface area with a maximum lifting load of 20kg and travel time not exceeding 25 seconds – door must be in good working condition.

* 12 month warranty on transmitters. Globes and batteries excluded. Warranty valid only if warranty conditions are met.

SOME OF OUR OTHER PRODUCTS

B&D also manufactures a sectional and tilting garage door opener and automatic gate openers, each operating with the reliability and dependability you would expect from the trusted name in automatic openers.

ACCESSORIES

Additional Remote Control Transmitters

For multiple person or vehicle use, additional 2, 3 and 4 channel hand and keyring transmitters offer maximum convenience and security.

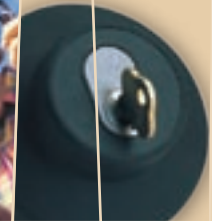

(Part numbers: 2 button hand transmitter - 062171, 3 button hand transmitter - 062170, 3 button keyring - 062162, 4 button keyring - 059116)

Combo Access Device

Recommended where the garage door is the only entry point. Allows you to open the door manually during a power failure, using a key to remove the barrel with a cord attached to the disengagement handle. Also allows for key electrical operation.

(Part number - 059009)

Entry Keypad

Allows entry to garage without a remote control transmitter. Operates via your own 4 digit security PIN. No wiring required.

(Part number - 062173)

Safety Infra-red Beams

For added safety and security the door will automatically stop and reverse if the beam is broken. B&D recommend the use of infra-red beams.

(Part number - 062153)

Transmitter Wall Button

Allows remote operation within 10 metres. No wiring required and can be mounted inside the home or garage. 4 Channels to operate two single doors or a double door and gate opener. Extra button could also be programmed to turn on/off your Controll-A-Door®'s courtesy light.

(Part number - 059120)

Forget about the hassles...
drive straight into your garage
and securely close your door.
