

**Design-A-Door<sup>®</sup>**

A garage door can take up to 30% of a home's frontage. With a B&D Design-A-Door you can significantly refresh the look of your home anytime you want, simply by changing your door's inserts.

YOU GET MUCH MORE WITH A B&D DOOR

Home by WA Country Builders

### The perfect way to accessorise your home...

It is now possible to ensure that your home reflects the latest in design with B&D's Design-A-Door®.

The B&D Design-A-Door is an innovative, sectional overhead panel garage door whose moods can change with the seasons.

The lightweight aluminium frame of the Design-A-Door holds different styles of

interchangeable panel inserts from a range of stylish materials including acrylic, timber, steel, fibreglass and aluminium. These inserts can be easily changed, to create a dramatic new look with a minimum of fuss. The frame itself can be installed with an aluminium finish or with a choice of over 100 powder coat finishes – enough to complement any home.

## INSERTS

The range of inserts include:

### 1. ALUMPANEL™ INSERTS

Panels manufactured from aluminium stucco with a textured appearance, providing a strong but lightweight finish. Stunning in natural aluminium or powder coated in a choice of over 100 colours.

ALUMPANEL™ INSERT

### 2. ALUMPANEL™ WITH AIR INSERTS

Perforated with small round holes, allowing ventilation and filtered light in and out of the garage. Also has the effect of being able to see out, without seeing in. Stunning in natural aluminium or powder coated in a choice of over 100 colours.

ALUMPANEL™ WITH AIR INSERT

### 3. ALUMINIUM PLATE INSERTS

Strong, long lasting aluminium panel inserts with a choice of horizontal ribbed, vertical ribbed or checker plate patterns that complement the style or design you are trying to create. Can be supplied in natural aluminium finish or powder coated in a choice of over 100 colours to suit your colour scheme.

ALUMINIUM PLATE HORIZONTAL RIBBED PATTERN INSERT

ALUMINIUM PLATE VERTICAL RIBBED PATTERN INSERT

ALUMINIUM CHECKER PLATE PATTERN INSERT

### 4. ACRYLIC PANEL INSERTS

Depending on your requirements, you can choose the clear acrylic panels that allow that 'inside/outside' feel that can extend an entertaining area, or act as windows, or the classy cool look of smoke acrylic that allows you to see out during the day without seeing in. The mysterious and 'oriental' look of opaque acrylic can allow light to come inside the garage or have that warm glow at night that could accentuate the garage and light up the driveway.

ACRYLIC PANEL CLEAR INSERT

ACRYLIC PANEL SMOKE INSERT

ACRYLIC PANEL OPAQUE INSERT

### 5. WESTERN RED CEDAR INSERTS<sup>1</sup>

The warm, natural texture of western red cedar timber builds a sense of contrast against the cool, clean aluminium frame. Using tongue and groove timber pieces, cut either in horizontal, vertical or diagonal patterns, you can match timber aspects of your home or garden. The frame can be powder coated to blend or contrast against the timber.

WESTERN RED CEDAR HORIZONTAL INSERT

WESTERN RED CEDAR VERTICAL INSERT

WESTERN RED CEDAR DIAGONAL INSERT

### 6. MINI ORB CORRUGATED STEEL INSERTS

The horizontal lined effect allows the garage door pattern to blend with the contemporary feel or the rustic charm of the roof and guttering material. Can be powder coated in over 100 colours.

MINI ORB CORRUGATED STEEL INSERT

### 7. FIBREPANEL™ INSERTS

Panels manufactured from fibreglass sheeting which allows light penetration and is suitable in areas where corrosion may affect the life of the door. Panels available in off white or smooth cream fibreglass to allow maximum light access through the panels.

FIBREPANEL™ INSERT

### 8. DESIGN YOUR OWN

Timber and Acrylic or Aluminium and Steel, add your personal touch by designing your own garage door. With an endless array of possible combinations, you can mix and match to suit style, ventilation, lighting and security.\*

\* Note: All inserts must be changed or installed by a B&D Doors Installer. For your local installer, please phone 13 62 63 or visit [www.bnd.com.au](http://www.bnd.com.au). Spring tension may need to be adjusted accordingly if weight of new panels varies.

<sup>1</sup> Because Western Red Cedar Inserts are manufactured from real timber, colour variations will occur across the insert. Every effort will be made to match colour as closely as possible, but some variation may still occur.

## AESTHETICS

- ◆ Frame manufactured from industrial strength aluminium and available in Dulux's extensive powder coating colour selection, to complement your home's colour scheme.
- ◆ Range of insert options means you design the door that suits the look you're after.
- ◆ Custom panel sizes, and evenly spaced insert openings ensuring the door fits your home perfectly.
- ◆ Door manufactured to fit your application from height 1370mm to 3420mm, width 1800mm to 6600mm.

## EASE OF OPERATION

- ◆ Frame is manufactured from industrial strength aluminium ensuring it is lightweight and remains rust free.
- ◆ Inserts fitted using snap-on extrusions and glazing seals.
- ◆ Automate your Design-A-Door with a B&D Controll-A-Door® for added operational convenience.

## WEATHER PROTECTION

- ◆ Bottom weatherseal – soft and pliable – helps stop leaves and rain coming in under the door.
- ◆ Galvanised hinges and hangers provide resistance to corrosion and long lasting durability in the toughest of weather conditions.

## SMOOTH QUIET OPERATION

- ◆ Nylon wheels with ball bearings ensure that operational noise is kept to a minimum.

## STRENGTH AND DURABILITY

- ◆ Springs are designed to exceed the Australian Standard for garage doors – 20,000 cycles; giving your door greater durability and a longer life.
- ◆ Reinforcing for wide doors – all panels reinforced for door widths of 3800mm and over.

## WARRANTY

- ◆ 12 month warranty for complete door and parts in domestic and industrial / commercial applications, surface (excludes salt corrosion).\*

\* Note – Warranty will be voided if inserts are not installed or changed by recognised B&D Door installer.
