

Flex-A-Door®

SLIDING OVERHEAD GARAGE DOOR

B&D's unique Flex-A-Door® is the perfect alternative when you are looking to replace your existing tilt door, or in situations where you have restricted headroom in your garage or carport.

YOU GET MUCH MORE WITH A B&D DOOR

The Flex-A-Door® patented design has overcome many of the obstacles usually involved when looking at replacing tilt doors or in low headroom situations. Flex-A-Door features B&D's famous Roll-A-Door® curtain fitted on a curving track, so the curtain lifts from a vertical position up into a horizontal position, close to the ceiling.

Flex-A-Door provides a clean, neat appearance on both the outside and inside, and comes in an extensive range of COLORBOND® finishes, to ensure it will suit the look of your home.

You can also choose to add the retractable head infill panel to the top of the door. The panel fills the gap at the top of the door, where the curtain curves back onto the horizontal track, providing a neat external appearance.

Also key in the design was ease of operation. Flex-A-Door is light to lift and does not require the out / up action of the traditional tilt doors, so you can park your car right up to the door, and not risk damaging it. Flex-A-Door can also be left open at any height, something a tilt door can't do, giving the added convenience of allowing the door to be partially open for ventilation.

Flex-A-Door is perfectly suited for residential homes with a tilt door, where a rolling door's roll would obstruct the door opening; in houses with a carport that would allow the door to slide flat against the ceiling; and in houses on piers with restricted height parking underneath.

Flex-A-Door®

SLIDING OVERHEAD GARAGE DOOR

COLOURS

B&D understands how important it is that your garage door suits your home and surroundings. That's why our Flex-A-Door comes in an extensive range of colour options.

With these colour swatches, and in the comfort of your own home, you can compare the colours to your existing home colour décor and style. Whatever look you're trying to achieve, there'll be a Flex-A-Door colour to suit your needs.

Colour can brighten, enhance, improve, signify, identify, complement, communicate, expose, refresh.

The colours shown in this brochure are as close to the actual colours as the printing process allows and may vary from actual. Before making your final selection, please feel free to request an actual colour sample from your nearest B&D office or B&D Accredited Dealer.

Refers to generic industry name.

² Non standard colours. Speak to your nearest B&D office or B&D Accredited Dealer for further information on these colours.

SMOOTH AND QUIET

Flex-A-Door garage doors will provide you with quiet, smooth, greaseless operation. Features include:

- ◆ Nylofelt® running strips and nylon rollers with bearings ensuring your door slides up and down with minimal effort.
- ◆ Plastic insert in the horizontal track providing smooth quiet operation.

SAFE

Safety should be a key consideration when selecting your garage door, as door failures can cause serious injury or even death. The following safety features have been built in to your Flex-A-Door:

- ◆ Extension springs enclosed and above head height – well out of the reach of children.
- ◆ No moving brackets or door supports which could act as finger or arm entrapments.

EASY OPERATION

Your Flex-A-Door will continue to be easy to open and close, with features such as:

- ◆ Limited headroom required above the walk-in height requirement, with a Roll-A-Door curtain, moving like a sectional door.
- ◆ Nylofelt® running strips for effortless sliding action.
- ◆ Door can be left open at any height, giving the added convenience of allowing the door to be partially opened for ventilation, while providing privacy when working in the garage.
- ◆ For even more convenience add a B&D Controll-A-Door® automatic sectional garage door opener.

WEATHER PROTECTION

The garage today is used to store many different valuable objects, and in some cases is converted into another room, so weather protection is an important feature of any garage door. Flex-A-Door features:

- ◆ COLORBOND® steel, to stand up to the harsh Australian climate.
- ◆ A weatherstrip with deep cushioning helping to restrict entry of water and leaves into the garage. On slightly uneven floors it reduces the gap for a better fit.
- ◆ A curtain that fits behind the opening and runs on a track, so Flex-A-Door won't blow shut in the wind like a tilt door can, and Flex-A-Door also restricts the wind from blowing through the entry way as can happen with tilt doors, which fit within the opening and therefore have a gap on each side.

SECURITY

The Flex-A-Door includes additional security features for peace of mind, such as:

- ◆ Waist height lock for ease of use and added security.
- ◆ Pick resistant lock design.
- ◆ The locking system is difficult to tamper with, as Flex-A-Door fits behind the opening, so security is improved.

GOOD LOOKING

The Flex-A-Door will enhance the appearance of your home with a quality finish and colour options including:

- ◆ 22 COLORBOND® finishes plus Zinalume® colour option, enough choices to suit any exterior.
- ◆ Roll-A-Door curtain for a clean, neat appearance.
- ◆ Stylishly designed centre lift lock.
- ◆ Hidden extension spring providing a tidy, uncluttered finish.
- ◆ Flex-A-Door fitting behind the opening and not protruding forward, as do jamb or canopy type tilting doors. This means the door can be fitted to openings with unusual shapes, such as arches, etc.
- ◆ In situations where a Flex-A-Door and a Roll-A-Door may be installed next to each other, or in close proximity, the two doors match.

DURABILITY

Your Flex-A-Door will continue to operate like new, with features such as:

- ◆ Springs designed to exceed the Australian Standard for garage doors – 20,000 cycles.
- ◆ The Roll-A-Door steel curtain providing a more rigid, stronger door.

WARRANTY

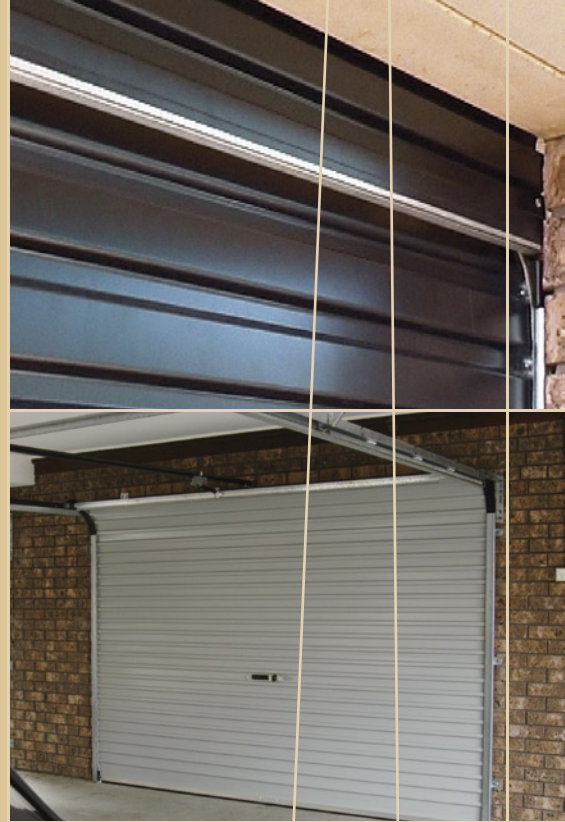

It's important to have peace of mind when you make a purchase, that's why your Flex-A-Door comes with a:

- ◆ 12 month warranty for complete door and parts in domestic / residential and industrial / commercial applications, surface (excludes salt corrosion).

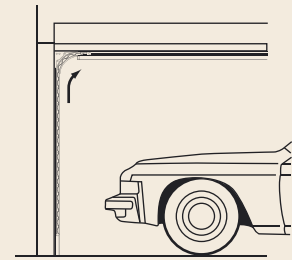

INSTALLATION CLEARANCES

PRODUCT	HEIGHTS	HEADROOM WITHOUT RETRACTABLE HEAD INFILL PANEL OPTION		RETRACTABLE HEAD INFILL PANEL OPTION		SIDEROOM	MINIMUM GARAGE DEPTH

Available for opening widths from 1200mm to 3100mm.

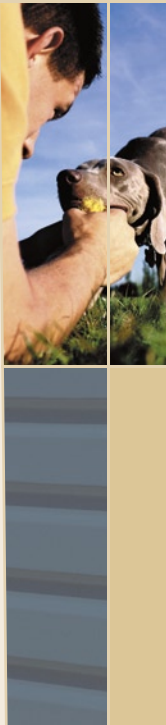

Flex-A-Door®

Traditional Tilt Door

As the Flex-A-Door (top) moves up, it does not protrude past the garage opening like the traditional tilt door (below) does.

Notes / Information

- For areas within one kilometre of a corrosive environment eg salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult B&D or your B&D Accredited Dealer for advice.
- B&D Flex-A-Door doors, in normal residential use, are covered by a 1 year warranty for complete door and parts, conditional on proper care, as recommended in the door's handbook. Full details of the warranty are available, on request, from your nearest B&D office.
- The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.
- B&D Flex-A-Door, Roll-A-Door, Nylofelt and Controll-A-Door are trademarks of B&D Australia Pty Ltd. Abuse of these will result in legal action.
- B&D products have many patents and registered designs applicable. Flex-A-Door has "Patent applied for, Provisional Patent Application No. 2004 90 1986."
- ® and ™ colour names, COLORBOND® and Zinalume® are registered trademarks of Bluescope Steel Limited.
- While Bluescope Steel Limited is our preferred supplier, steel products from other sources may also be used.
- Details correct at date of publication.
