

Even more Convenience with a B&D
Controll-A-Door® automatic garage door opener.

For easier operation of your Panelift door, add a B&D Controll-A-Door® (CAD 4 or CAD P Diamond) automatic garage door opener. Designed to perfectly suit the B&D Panelift door, the Controll-A-Door provides:

- ◆ Convenience – One push of the remote control transmitter button and you drive straight into your garage.
- ◆ Comfort – No more lifting those heavy doors.
- ◆ Safety – Forget getting out of the car on those dark or rainy nights. Courtesy light allows you to see inside the garage before switching on the light.
- ◆ Security – Protection for yourself and your property with a positively locked garage door.
- ◆ Value – Adds value to your home.

YOUR B&D REPRESENTATIVE IS

Notes / Information

- a) For areas within one kilometre of a corrosive environment e.g. salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult B&D or your B&D accredited dealer for advice.
- b) B&D Panelift doors, in normal residential use, are covered by a 12 month warranty, conditional on proper care, as recommended in the door's handbook. Full details of the warranty are available, on request, from your nearest B&D office.
- c) The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.
- d) B&D Panelift, Statesman, Grange and Controll-A-Door are trademarks of B&D Australia Pty Ltd. Abuse of these will result in legal action.
- e) B&D products have many patents and registered designs applicable.
- f) ® and ™ colour names, COLORBOND and COLORGRAIN are registered trademarks of Bluescope Steel Limited.
- g) While Bluescope Steel Limited is our preferred supplier, steel products from other sources may also be used.
- h) Window frame / trim colour may vary slightly to door colour.
- i) Details correct at date of publication.

The garage door is an integral part of the design, architecture and security of your home. No matter what sort of garage style or house design you have, there is a B&D Panelift® door that will be the perfect fit for your home, and in a style that complements the rest of your architectural aesthetics.

YOU GET MUCH MORE WITH A B&D DOOR

When you choose a B&D Panelift®, you're getting a door that functions smoothly and reliably.

When you buy a B&D door you're buying the best in design features and styles. The B&D Panelift® sectional garage door is especially innovative in its design and is made in a style and colour to suit every requirement.

B&D Panelift doors have a wide range of features which make them one of the most technologically advanced doors available.

Sectional doors comprise hinged horizontal panels that lift up and lie parallel with the ceiling of your garage when open, and do not protrude into the driveway or street at any time during operation.

Enhance the appearance of your home with a good looking garage door.

When building or renovating your home, don't overlook the importance of the garage door. It can take up to 40% of your home's frontage, and will have a large impact on the overall appearance of the house.

With five steel and two timber designs available, B&D's Panelift door comes in enough choices to ensure you'll find one that suits the style of your home perfectly.

And we all know colour is important. That's why we have a wide range of colours available, including 19 COLORBOND® and three COLORGRAIN® finish options (see page 7), so you can achieve a perfect colour match with your Panelift steel door. That's enough choices to suit any exterior.

There are some other things that make a door look good, which you may not have considered. The little things that B&D includes in our steel Panelift range, to ensure you get the best looking door. Our computer controlled manufacturing process ensures properly balanced spacing of the raised patterns, to suit most doors of varying heights and widths. This is critical to the appearance of a door. We also custom make your door to suit your garage opening perfectly, with equal size panels. This is different to many door manufacturers, who use stock sized panels. At B&D your garage door is made for your home. And to reduce unsightly gaps between the door and the door jamb, Panelift steel doors include a new bottom panel hinge.

We're also aware that sometimes garages aren't just for cars, but can become another room for your house, so internal appearances are just as important as external ones. Our in-line wheels and tracks, factory fitted internal hinging system and fully enclosed stiles provide a clean, uncluttered appearance on the inside of the door.

To finish your door off perfectly, we also give you the option of five attractive window designs in the Statesman, Federation and Grange doors (see next page for more details).

Now that B&D's done all the hard work ensuring your door will look great, all you have to do is pick which style and colour fits perfectly with your home...

B&D's Panelift sectional garage door is the result of years of engineering development, combined with the introduction of one of the most advanced garage door manufacturing plants in the world.

All five Panelift steel styles are offered with a woodgrain texture, but if you prefer a smooth look, they are available with the optional flat finish to the panels.¹

SEVILLE

Seville™ has two fine horizontal ribs across each panel, to provide a slatted look. This design offers a very subdued, contemporary appearance for the modern home.

SEVILLE

TURINO

Turino™ has five ribs across each panel, giving a shiplap board effect. The space between the ribs across the Turino is fixed. The space between the outside ribs and the panel's horizontal edges varies.

TURINO

STATESMAN

The elegant Statesman® raised pattern design, adds a stylish finish to the door that will enhance the appearance of your home. Windows can be added to complete the look.

FEDERATION

For homes with a more traditional feel, the Federation style adds another embellishment to the raised pattern of the popular Statesman design. You can also choose to let more light into your garage, with a range of optional window designs available.

WINDOW STYLES

The following window styles are available for B&D Panelift Statesman and Federation models. (Plain without pattern also available).

STATESMAN

FEDERATION

If it's the special look of timber that you're after, to complement the most luxurious architectural styles, or provide harmony in a bushland setting, you can't go past the B&D Panelift timber doors.

TIMBERPANEL*

The Panelift Timberpanel™ door features slim horizontal boards, joined with a shiplapped effect, made from the highest quality western red cedar and strengthened with aluminium extrusions for added support.

TIMBERPANEL

CRAFTPANEL*

Nothing can match the natural charm of timber, and B&D's Panelift Craftpanel™ door is the carpenter's art perfected. Designed for Australian conditions and crafted using the finest western red cedar, the raised patterns and frame provide both enduring strength and natural beauty.

CRAFTPANEL

GRANGE

The Grange® door has an attractive wide raised pattern design. For a custom look, choose from a variety of decorative window treatments.

WINDOW STYLES

The following window styles are available for B&D Panelift Grange model. (Plain without pattern also available).

WARRANTY

It's important to have peace of mind when you make a purchase, that's why your Panelift door comes with a:

12 month warranty for complete door and parts in domestic and industrial / commercial applications, surface (excludes salt corrosion).

¹ Note: The process of roll forming sheet steel may cause irregularities in flat panel surfaces. Woodgrain texture improves the door aesthetics. Flat finishes not available for all sizes.

*Timberpanel and Craftpanel doors not supplied with internal hinges or moulded polypropylene track curves.

It's the added features in the Panelift door that make it one of the most technologically advanced doors available.

SMOOTH AND QUIET

Panelift garage doors will provide you with quiet, smooth operation. Features include:

- ◆ Factory fitted, polypropylene internal hinging system and moulded, glass reinforced polypropylene track curve (excludes Panelift timber doors).
- ◆ Nylon wheels with ball bearings.

SAFE

Safety should be a key consideration when selecting your garage door, as door failures can cause serious injury. The following safety features have been built in to your Panelift door (excludes Panelift timber doors):

- ◆ Panel edge shape and the way the hinge rotates means there is little chance of finger entrapment between panels, on both the outside and inside; only possible with B&D's unique, patented hinging system.
- ◆ Rolled over edges on stiles, panels and reinforcing reduces the risk of cut fingers.
- ◆ In-line wheels and track that do not protrude behind the door, reducing the chance of finger entrapment at the sides of the door.
- ◆ Factory fitted hinges and pinch free panel profile, reducing the chance of finger entrapment.

EASY OPERATION

Your Panelift door will continue to be easy to open and close, with features such as:

- ◆ Ball bearing wheels with polypropylene hinges and glass reinforced polypropylene track curve, allowing the door to run easily and smoothly during opening and closing (excludes Panelift timber doors).
- ◆ Polypropylene hinges and track curve reduce the chance of the door binding (excludes Panelift timber doors).

WEATHER PROTECTION

The garage today is used to store many different valuable objects, and in some cases is converted into another room, so weather protection is an important feature of any garage door. The Panelift door features:

- ◆ COLORBOND® steel, to stand up to the harsh Australian climate.
- ◆ Bottom weatherseal which is soft and pliable, helping to stop leaves and rain coming in under the door.
- ◆ Jamb seal kit option available to reduce gaps between the door and the door jamb, to keep out the weather.
- ◆ Timberpanel and Craftpanel are sealed for protection from the weather.

DURABILITY

Your Panelift door will continue to operate like new, with features such as:

- ◆ Springs designed to exceed the Australian Standard for garage doors – 20,000 cycles.
- ◆ Factory fitted, internal hinging system, eliminating the need to maintain hinges (excludes Panelift timber doors). Steel hinges need lubrication and tightening of screws.

Design your own Panelift door, selecting your choice of style, colour and window options in the door design centre at www.bnd.com.au

COLOURS

B&D understands how important it is that your garage door suits your home and surroundings. That's why our Panelift steel doors come in an extensive range of COLORBOND® and COLORGRAIN® options.

With these colour swatches, and in the comfort of your own home, you can compare the colours to your existing home colour décor and style. Whatever style or image you're trying to achieve, there'll be a Panelift door colour to suit your needs.

Colour can brighten, enhance, improve, identify, communicate, complement, signify, expose, refresh.

The colours shown in this guide are as close to the actual colours as the printing process allows and may vary from actual. Before making your final selection, please feel free to request an actual colour sample from your nearest B&D office or B&D Accredited Dealer.

Refers to generic industry name.

² Non standard colours. Speak to your nearest B&D office or B&D Accredited Dealer for further information on these colours.

³ COLORGRAIN® colours. Speak to your nearest B&D office or B&D Accredited Dealer for further information on these colours.
